MAIN IDEA

"Straight Line Selling" is a sales methodology which was originally developed in the boiler rooms of penny stock sellers and used to sell millions.

The essence of the Straight Line Selling system is nobody will ever buy from you until you have created three certainties in their mind and provided two different types of motivation:

Every sale is the same, regardless of what you sell. Create those three certainties in the prospect's mind and they will buy. Fail to do that and they will not. Anything else is just an optional extra.

"Selling is everything in life. In fact, either you're selling or you're failing. We're always trying to convey our thoughts and ideas and hopes and dreams in a way that not only moves people to take action but that also gets us what we want in life too. That's what ethical persuasion is all about; and without that one, lynchpin skill, it is very difficult to achieve success, at any reasonable level, or live an empowered life."

– Jordan Belfort

- 4 You have to lower the action threshold
- 5 You have to raise the pain threshold

- 2 That you are enthusiastic as hell
- 3 That you are an expert in your field

3. The art of straight-line prospecting Pages 5 - 6

Trying to sell something to someone who doesn't need or want what you offer is a total waste of time. To avoid that, become an expert at straight-line prospecting. The aim:
